INTERNSHIP & TRAINING

Dev Kind Technologies LLP | *Software Intern*

Jan. 2024 – Mar. 2024

- Developed and maintained a web portal with PHP and MySQL, following best practices and secure coding standards.
- Applied Agile methodologies and maintained proactive communication to ensure project deadlines were met.
- Created a WordPress plugin for role authentication, enhancing security and access control on the website Link.

Exposys Data Labs | *Data Science Intern*

Oct. 2023 – Oct. 2023

- Worked on a project for "Early-Stage Diabetes Prediction" using machine learning techniques and data analytics, and analyzed and presented data findings to derive actionable insights.

Sumago Infotech Pvt Ltd | *Industrial Training*

Jul. 2021 – Aug. 2021

- Worked on web development projects using PHP, HTML/CSS, JavaScript, and MySQL, following industry best practices.
- Documented code and processes effectively, and managed version control with Git.

SKILLS

Languages: Java, PHP, C++, Python

Web Development: HTML/CSS, Bootstrap, React.js, JavaScript, Composer, REST API, CodeIgniter

Tools and Platforms: MySQL, GitHub, Figma, JDBC

Specialized Skills: WordPress, Prompt Engineering

Coursework: Object-Oriented Programming, Data Structures & Algorithms, Operating System, DBMS, Computer Networks

PROJECTS

Employee Health Tracking | *PHP, MySQL, CodeIgniter* | [Link](#)

- Digitized the Employee Annual Health Checkup process, ensuring efficient and accurate health data management.
- Developed a system where a digital Health Card with QR code is generated after the health checkup for quick and easy access to health records, enhancing accessibility and usability.
- Implemented secure and scalable solutions adhering to best practices in PHP and MySQL.

Nagnath Multi-Finance Web Portal | *PHP, MySQL, CodeIgniter* | [Link](#)

- Developed a secure and scalable web portal for account management, fixed deposits, and loan EMI tracking using PHP and MySQL.
- Implemented unit testing and followed Agile methodologies for effective project management.

Role Authentication Plugin | *PHP, MySQL, WordPress* | [Link](#)

- Developed a plugin for role authentication on a WordPress site, ensuring secure and role-based access control.
- Followed best practices in PHP and WordPress development, including coding standards and documentation.
- Managed version control using Git, and maintained clear and detailed project documentation.

VOLUNTEERING & LEADERSHIP

Hardware and Network Maintenance | *Team Co-Lead* | Government Polytechnic Solapur

Jul. 2021 – Jun. 2022

- Led a team in maintaining and upgrading computer systems, showcasing problem-solving skills and technical knowledge.
- Enhanced performance and resolved technical issues, demonstrating attention to details and technical expertise.
